

# The SYFT Advantage

## AT A GLANCE

- Matching spec and fit: No Process Change, Drop in equivalents for woven wire screen panels (aperture, wire dia, alloy, weave, open area, connections).
- ~20% lower program pricing
- Smooth process change: We can mirror your internal part numbers on labels and packing slips, and partner with your preferred distributor. (No new part #'s, or new vendors)
- Price Lock-ins/stability & stocking programs available

Switching to SYFT Screen Panels is simple, everything is the same, except a lower price.

Realize sustained auditable savings without changing how you work.

### SYFT SCREENS PANELS vs YOUR CURRENT SUPPLY

Criterion	Your Current Provider	SYFT Screen Panels	Benefit
Spec equivalency	Current approved panels	1:1 drop-in equivalents (aperture, wire dia, weave, alloy) with documented cross-reference	No re-training; zero line disruption
Program pricing	Current run rate	~20% lower	Annualized savings without changing usage
Labels & IDs	Vendor's part #	Your internal part # mirrored on labels/pack slips	Eliminates mis-picks; easy adoption, easy change management
Onboarding effort	Already completed.	SYFT can match your internal part #'s, and also partner with your preferred distributors	Minimal to no internal lift, no new vendors or new part numbers required
Quality documentation	As-is	MTRs/CoC + FAI pack on request	Faster qualification; audit-ready
Inventory/Stocking	Based on market demand	Custom stocking programs available	Screens available for next day shipment
Price stability	Annual reviews	12- 24 month price locks available	Budget predictability
Packaging	Individually Packaged Box	Individually Packaged Box	No changes to warehouse/receiving practices
Technical Support	Standard	Direct access to owners	Instant support with authority to take action
